Company Profile

Star Manufacturing is a Precision Metal Stamping, Fabrication, and CNC Machining Company with experience in metal forming, turning, milling and finishing. An experienced Tool and Die department and ISO9001:2015 Quality Certification support this ability. Star Manufacturing has assembly, welding and powder coat ability. Star Manufacturing specializes in precision sheet metal fabrication, small to medium sized stampings, waterjet cutting, small to medium sized machined products & powder coating services.

Facilities

Star Manufacturing's Facilities are located in New Braunfels and Seguin, Texas near IH-35 and IH-10, between Austin and San Antonio, Texas. Star Manufacturing's locations are strategically placed to provide services to the United States, Mexico and International Exports through Houston. Both facilities are ISO9001:2015 certified and linked together through a common server and MRP system.

KEY EQUIPMENT

STAMPING:

32 to 75 ton OBI presses with servo feed lines
220 ton straight side press with servo feed line

FABRICATION:

Amada 2500 watt lasers
Amada Turret press
Amada Brake Presses up to 135 tons & 10 ft. length
Amada 8 ft. & 10ft. Shears
Flow Waterjet
Tapping
Hardware insertion
Timesavers
Deburring
Vibro deburr & burnishing
Welding: TIG, MIG, RSW

POWDER COATING:

Pressure Island Preparation System
Powder Application booth
NC Controlled cure oven

CNC MACHINING:

Mazak & Haas CNC lathes up to 3 in. diameter
Citizen Swiss Style turning up to 1-1/4 in. diameter
Cinicom CNC lathe
EMCO Hyperturn 45
Brother pallet changer CNC mills
Haas VF & DM style CNC mills
Brother S700x1 CNC mill
Extrude Honing

TOOLROOM:

Bridgeport Mills with DRO
Engine lathes with DRO
Surface grinders with DRO
6 ft. radial arm drill press
Brother wire EDM
Heat Treat & Draw ovens

INSPECTION:

Vertex 420 micro-vu vision system
Optical Comparators
Digital height gauges
Grade A surface plates
Hardness testers
Pin gauges, thread gauges, micrometers, bore Gauges,
calipers and other conventional measurement instruments
